

COLORI

COLORI

MORBIDE TONALITÀ PER LA STANZA DA BAGNO

IT Il centro ricerche Catalano, in risposta alle esigenze di mercato orientate sempre più alla personalizzazione e alla necessità di differenziazione, ha sviluppato internamente nuovi smalti colorati capaci di garantire nel tempo un'assoluta resistenza alle abrasioni, agli acidi e agli sbalzi termici. Applicati ad una selezione di prodotti già presenti a catalogo, le nuove colorazioni propongono morbide tinte pastello. Tonalità neutre satinata che riescono a “vestire” con eleganza le ceramiche Catalano conferendo loro maggiore caratterizzazione e un inedito ruolo arredativo.

DE Weiche Farbtöne für das Badezimmer

Das Forschungszentrum von Catalano hat als Reaktion auf die Marktanforderungen, die sich zunehmend an der Individualisierung und Differenzierung orientieren, neue Farbglassuren entwickelt, die höchste Kratzfestigkeit, Säurebeständigkeit und Temperaturwechselbeständigkeit während der Produktlebensdauer.

Diese neuen Glasuren in Pastelltönen wurden auf eine Auswahl von Produkten, die bereits im Katalog enthalten sind, angewendet. Diese neutralen Satinfarben schaffen es, die Keramik von Catalano mit Eleganz zu “kleiden” und verleiht ihr mehr Charakter und eine neue Bedeutung für die Einrichtung.

FR De douces nuances pour la salle de bains

Pour répondre aux exigences d'un marché toujours plus orientées sur la personnalisation et le besoin de se différencier, le centre de recherches Catalano a développé en interne de nouveaux émaux colorés en mesure de garantir, dans le temps, une résistance absolue aux abrasions, aux acides et aux écarts thermiques. Appliquées à une sélection de produits déjà présents dans le catalogue, les nouvelles couleurs se déclinent dans de douces teintes pastel.

Des teintes neutres satinées qui parviennent à “habiller” avec élégance les céramiques Catalano, leur conférant une plus grande caractérisation et une fonction de décoration inédite.

SOFT SHADES IN THE BATHROOM

EN Catalano Research Centre, in order to meet the market need for customization and differentiation, has developed in-house new colored glazes able to guarantee a high resistance over time to abrasions, acids and thermal shock.

Applied to a selection of products, the new colors deliver soft pastel shades. These neutral satin tones are able to “dress up” with elegance the Catalano ceramics, giving them greater peculiarity and a new decorative role.

ES Tonos suaves para el baño

El centro de investigación de Catalano, como respuesta a las necesidades de mercado orientadas cada vez más a la personalización y la necesidad de diferenciación, ha desarrollado internamente nuevos esmaltes de colores que garantizan una resistencia absoluta a la abrasión, a los ácidos y a los cambios térmicos a lo largo del tiempo.

Estos nuevos colores, que se han aplicado a una selección de productos ya presentes en el catálogo, proponen suaves tonos pastel.

Tonos neutros satinados que logran “vestir” con elegancia las cerámicas de Catalano aportándoles una mayor caracterización y un inédito papel decorativo.

RU Мягкие оттенки для ванной комнаты

Исследовательский центр компании Catalano в ответ на потребности рынка, ориентированные в стороны персонализации и дифференциации, разработал собственные новые цветные эмали, гарантирующие великолепную устойчивость к истиранию со временем, устойчивость к воздействию кислот и перепадам температуры. Новые цвета, уже представленные на избранной продукции в каталоге, включают мягкие пастельные оттенки. Нейтральные сатиновые цвета элегантно “облачают” керамические изделия Catalano, придавая им еще большую неповторимость и делая их еще более уникальными предметами интерьера.

DE **Extrem leicht zu reinigen**

Die von unserer Firma entwickelte Emailierung erlaubt es, anders als bei vielen Mitbewerbern, auch bei matten Ausführungen den hohen Standard für die Reinigungsfreundlichkeit beizubehalten.

FR **Grande facilité de nettoyage**

L'émail utilisé par notre société, permet de garantir même pour les couleurs satinés, une grande facilité de nettoyage pour une hygiène parfaite contrairement aux standards des autres producteurs.

ES **Elevada ecología**

El esmalte desarrollado por la fábrica, permite también a los acabados satinados de mantener invariado elevado coeficiente de sostenibilidad y máxima higiene a diferencia de muchos de nuestros competidores.

RU **Высокая очищаемость**

Эмаль, разработанная компанией, позволяет даже сатинированной покраске сохранить высокие стандарты лёгкой очистки и максимальной гигиены в отличие от продукции многих конкурентов.

IT I Wc colorati presentano la finitura esterna satinata ed interna lucida, che garantisce la massima efficacia di pulizia ed igiene delle superfici. I bidet invece mantengono la satinatura sull'intera superficie del sanitario.

EN The satin colour WCs have an outside satin finish and an inside glossy finish, which guarantees maximum cleaning and hygiene of the surfaces. Bidets are satin finished throughout the whole surface.

DE Die farbigen WCs die matte und innen die glänzende Verarbeitung auf, die bei der Reinigung und Hygiene der Oberflächen die größtmögliche Wirksamkeit gewährleistet. Bei den Bidets bleibt dagegen die gesamte Oberfläche mattiert.

FR Les cuvettes WC présentent une finition externe satinée et interne brillante qui garantit un maximum d'efficacité de nettoyage et d'évacuation. Le bidet sont traités intérieurement en satiné.

ES Los Wc de color presentan el acabado externo satinado y el interno con el sistema brillo que garantiza la máxima eficacia de limpieza y de higiene de la superficie. El bide mantiene el esmalte satinado sobre toda la superficie esmaltada.

RU Цветные цвета предлагают внешнюю сатиновую и внутреннюю полированную отделку, которая гарантирует максимальную эффективность очистки и гигиены поверхности. А вот биде сохраняют сатиновое покрытие по всей поверхности изделия.

Unicità del colore Unique colour

IT Il centro ricerca di Catalano ha sviluppato internamente le nuove colorazioni proposte, mettendo a punto delle tinte esclusive, differenziandosi ancora una volta dall'offerta standard globale di fornitori esterni comuni a tutti.

EN Catalano R&D have developed these new colours in-house, so they are exclusive and different from others available in the market provided by external suppliers.

Bianco satinato
Satin white

Cemento satinato
Satin cement

Nero satinato
Satin black

Verde satinato
Satin green

Azzurro satinato
Satin blue

Grigio satinato
Satin grey

Marrone satinato
Satin brown

DE Einzigartige Farben

Das Catalano-Forschungszentrum hat die neu angebotenen Farben vollständig entwickelt und exklusive Farbtöne ausgearbeitet. So hebt sich Catalano erneut vom weltweiten Standardangebot externer Anbieter ab, das bei allen gleich ist.

FR Uniformité de la couleur

Le centre de recherche et développement a développé la nouvelle offre de couleurs, mettant au point des couleurs exclusives, se différenciant des offres standards et globales des fournisseurs communs à tous.

ES Unicidad del color

Nuestros colores son el fruto de una cuidada búsqueda y constante colaboración con estructuras especializadas en el sector, con el objetivo de crear productos únicos que duren en el tiempo.

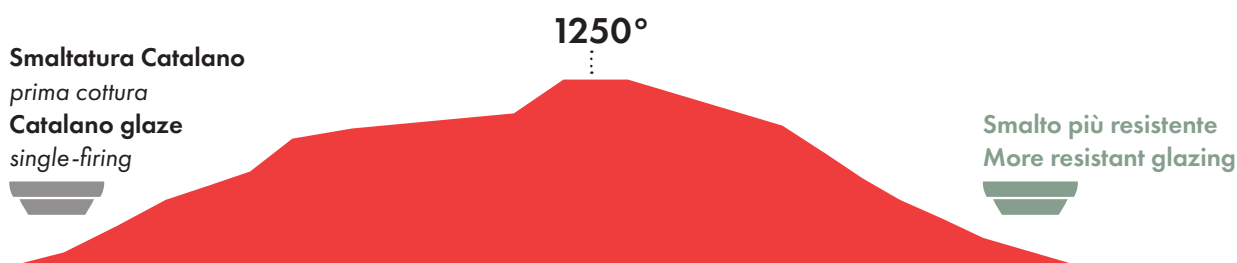

RU Уникальность цвета

Лаборатория компании Catalano самостоятельно разрабатывает новые краски в эксклюзивных оттенках, ещё раз выделяясь из стандартного глобального предложения внешних поставщиков, общих для всех.

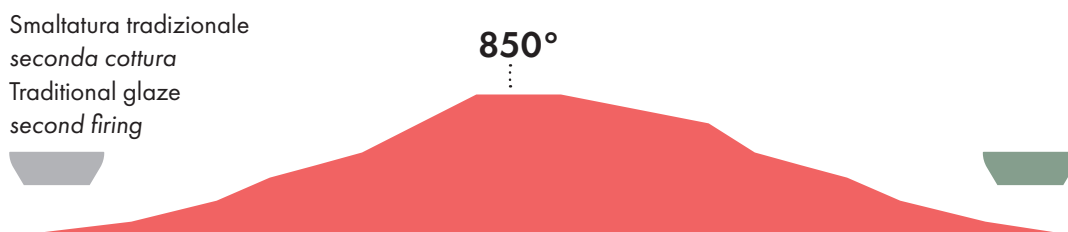

Monocottura ad alta temperatura High Temperature single-firing

IT **A garanzia della qualità Catalano, anche i prodotti colorati sono ottenuti tramite una monocottura ad alta temperatura -1250°- conferendo loro le stesse proprietà di resistenza e durata della finitura Cataglaze®+ Silver Titanium lucida.**

EN **To guarantee Catalano's signature quality, the coloured products go through a single firing at high temperature -1250°- which gives them the same strength and durability properties of the Cataglaze®+ Silver Titanium gloss finish.**

Curva di cottura
Firing curve

Curva di cottura
Firing curve

DE Einmalbrandverfahren bei hoher Temperatur

Um die Catalano-Qualität zu gewährleisten, werden auch die farbigen Produkte in einem Einmalbrandverfahren (Monocottura) bei hoher Temperatur -1250°- hergestellt, das ihnen die selbe Widerstandsfähigkeit und Langlebigkeit verleiht, wie der glänzenden Cataglaze®+ Silver Titanium- Emaillierung.

FR Monocuisson à Haute température

Pour garantir une qualité Catalano, ces produits colorés sont obtenus par une monocuisson réalisée à haute température -1250°- donnant les mêmes propriétés de résistances et de longévités que la finition Cataglaze®+ Silver Titanium brillante.

ES Monococción a alta temperatura

La garantía de la calidad de Catalano, también sobre los productos de color es obtenida por medio de una monococción de alta temperatura -1250°- confirmando las mismas propiedades de resistencia y duración del acabado Cataglaze®+ Silver Titanium brillo.

RU Однократный обжиг при высокой температуре

Гарантией качества Catalano, также являются изделия, окрашенные по методу однократного обжига на высоких температурах -1250°- наделяя их прочностью и долговечностью лакированной отделки Cataglaze®+ Silver Titanium .

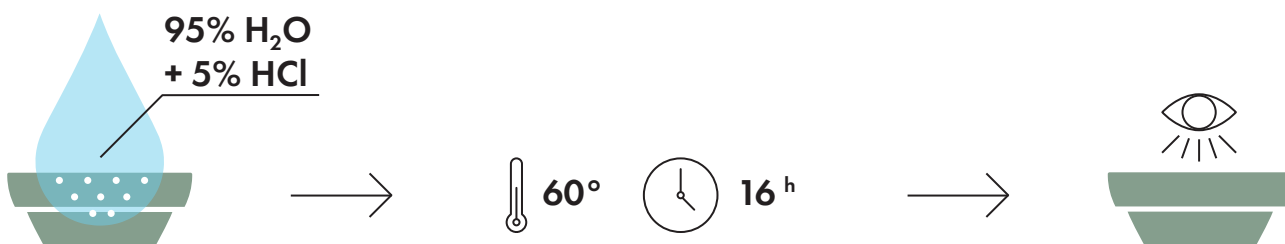

Resistenza agli agenti chimici

Resistance to chemicals

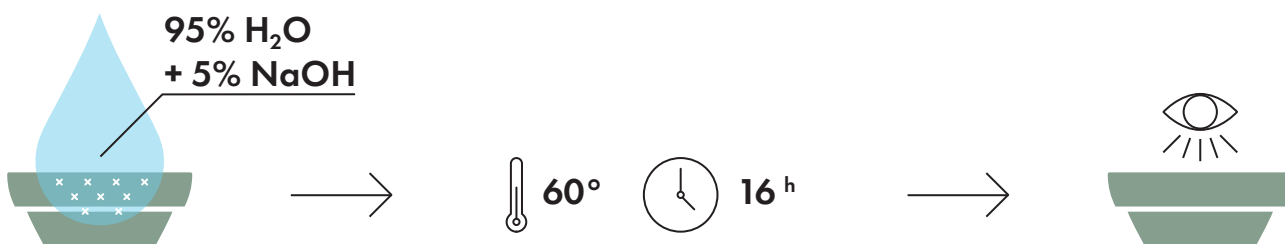

IT **La resistenza agli agenti chimici dei prodotti smaltati viene testata tramite immersione degli stessi in una soluzione con un 5% di acido cloridrico prima e in una soluzione acquosa contenente il 5% di idrossido di sodio.**

EN **The test the resistance against chemical agents, the glazed satin products are dipped in hydrochloric acid 5% solution and then in a sodium hydroxide 5% aqueous solution.**

Primo test
First test

Secondo test
Second test

DE **chemikalienbeständig**

Um die Widerstandsfähigkeit der emaillierten Produkte gegen Chemikalien zu testen, werden diese zunächst in eine Lösung mit 5% Salzsäure getaucht, und dann in wässrige Lösung mit einem Natriumhydroxidgehalt von 5%.

FR **Résistance aux agents chimiques**

La résistance aux agents chimiques des produits émaillés est effectuée par immersion dans une solution contenant 5% d'acide chlorhydrique et une solution aqueuse contenant 5% d'hydroxyde de sodium.

ES **Resistencia a los productos químicos**

La resistencia a los agentes químicos de los productos esmaltados viene comprobada por medio de inmersión de los mismos en una solución con un 5% de ácido clorhídrico primero y en una solución de agua que contiene un 5% de hidróxido de sodio después.

RU **Устойчивость к воздействию химических веществ**

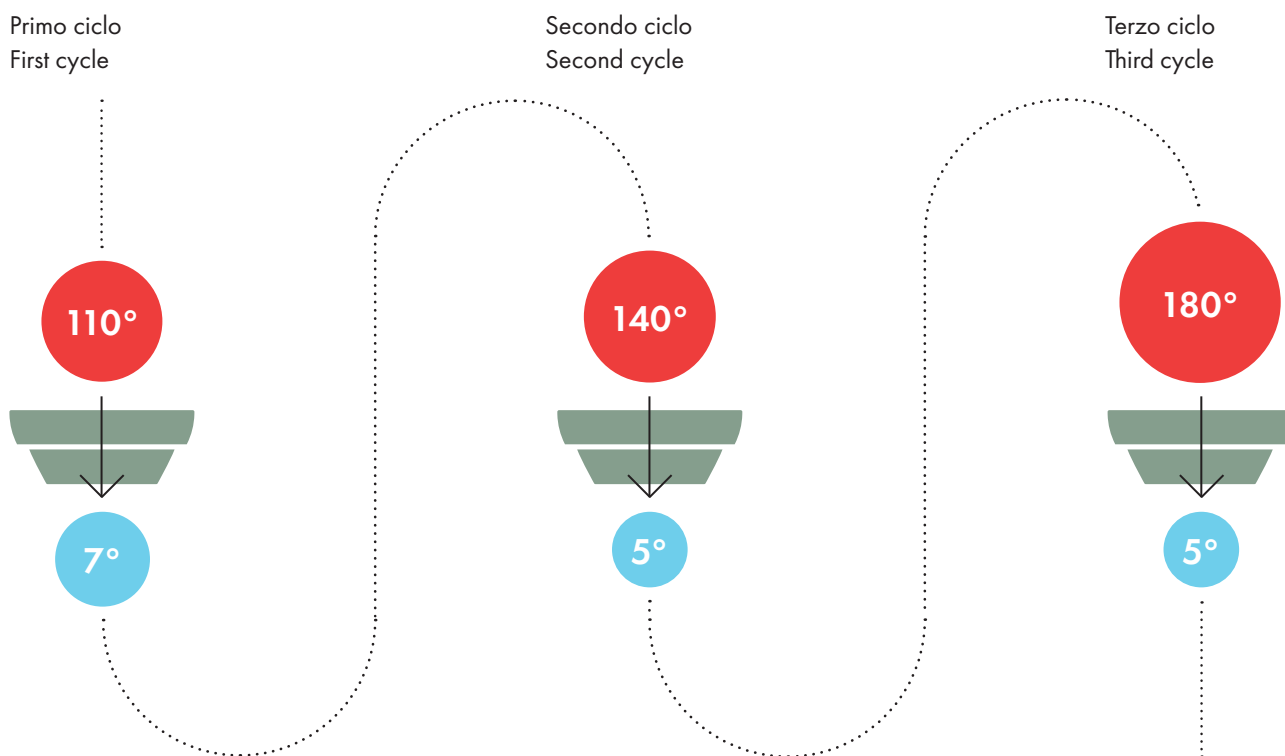

Химическая стойкость эмалированных изделий проверяется путем их погружения сначала в 5% -й раствор хлористоводородной кислоты, а потом в водный раствор 5%-м раствора гидроксида натрия.

Resistenza agli sbalzi termici

Thermal shock resistance

IT A verifica della resistenza agli sbalzi termici, i prodotti colorati della Catalano sono sottoposti ad un processo di tre cicli continui di shock termici progressivi, con escursioni tra i 110° e i 180°.

EN After the glazing phase, each Catalano satin product is tested for thermal shock resistance through three continuous cycles of progressive thermal shock, with temperature ranging from 110° to 180°.

DE Beständigkeit gegen Temperaturschwankungen

Zur Überprüfung der Widerstandsfähigkeit gegen Temperaturschwankungen, werden die farbigen Catalano -Produkte einem Verfahren mit drei ufeinanderfolgenden Temperaturschocks mit Spitzen bis zu 110° und 180° unterzogen.

FR Résistance aux variations thermiques

Afin de vérifier la tenue des couleurs aux variations thermiques, les produits colorés sont soumis à un procès de trois cycles de chocs thermiques progressifs, jusqu'à des températures de 110° et 180°.

ES Resistencia a los cambios termicos

Despues de verificar la resistencia a los cambios termicos, los productos de color de Catalano están preparados por un proceso de tres ciclos continuos de cambio termico progresivo con diferencias entre 110° y 180°.

RU Термическая устойчивость

Для проверки устойчивости к перепадам температуры краски компании Catalano подвергаются трём непрерывным циклам прогрессивного теплового шока с колебаниями в 110° и 180°.

Combinazioni colori

Combinations of colours

IT I nuovi colori possono essere combinati liberamente lasciando spazio alla creatività del progettista o dell'utente finale che potrà ideare l'ambiente bagno secondo i propri gusti e desideri. È possibile abbinare lavabi e vasi in finiture diverse, o diversificare il colore del wc dal sedile per una versione bicolour anche tra finiture lucide e opache.

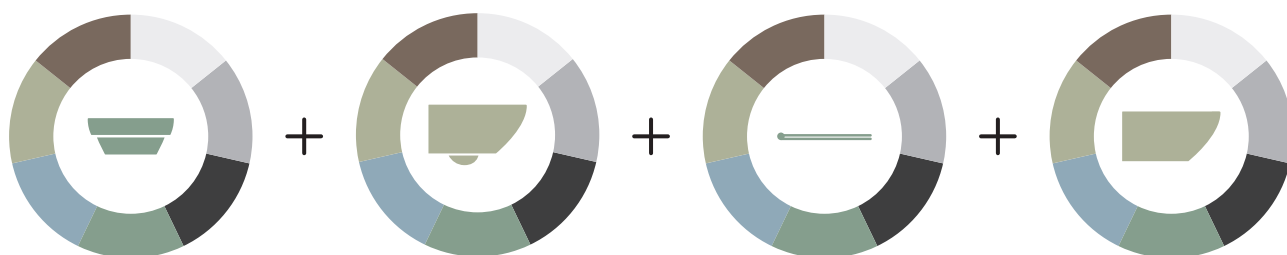

EN The new colours can be combined to suit the taste and needs of the end user and the creativity of designers. Washbasins and toilets with different finishes can be mixed and matched to create a unique look. A two-tone WC can be achieved by choosing a different colour for the pan and the toilet seat, and even by combining gloss against matt finish.

Lavabo
Washbasin

Wc

Sedile
Seat cover

Bidet

DE Farbkombinationen

Die neuen Farben können frei kombiniert werden und lassen der Kreativität des Planers oder des Endnutzers breiten Raum, der das Bad nach seinem eigenen Geschmack und seinen eigenen Wünschen gestalten kann. Es ist auch möglich, Waschtische und WCs/Bidets mit unterschiedlichen Verarbeitungen zu kombinieren, oder mit unterschiedlichen Farben für WC und Sitz eine zweifarbige Version zu erzeugen, auch in einer Kombination von glänzenden und matten Oberflächen.

FR Combinaison de couleurs

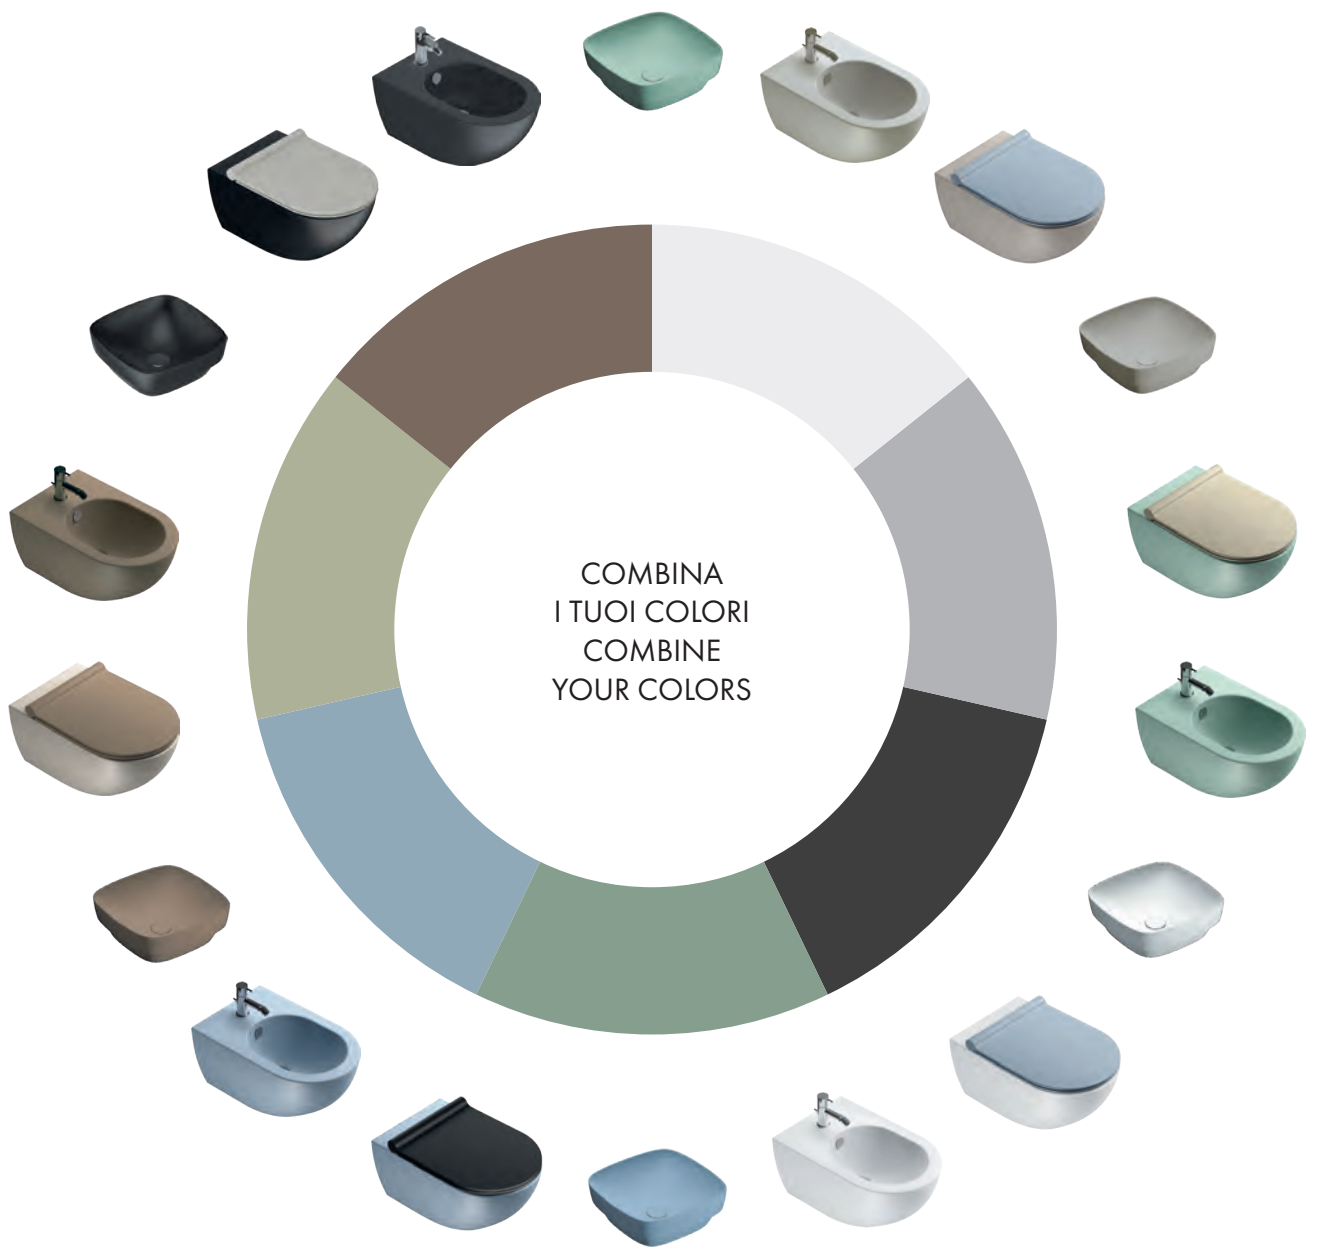

Les nouvelles couleurs peuvent être coordonnées librement laissant un large espace à la créativité et donner à la salle de bains cette touche personnelle indispensable. Il est possible de mélanger les lavabos et les cuvettes de différentes couleurs et finitions ou les cuvettes et leurs abattants pour des mélanges entre les couleurs et les finitions.

ES Combinación de colores

Los nuevos colores pueden ser combinados libremente dejando un amplio espacio a la creatividad del proyectista o del cliente final, que puede diseñar el baño según sus propios gustos y deseos. Es posible combinar lavabo y wc en acabados diferentes o diversificando el color de lwc y de la tapa para realizar una versión bicolor incluso con acabados brillo y mate.

RU Сочетание цветов

Новые краски можно свободно смешивать, оставляя достаточно места для творчества дизайнера или конечного пользователя, который может создать ванную комнату по своему вкусу и желанию. Возможно совмещение раковины и унитаза с разной отделкой или унитаза и сиденья разного цвета, создавая двухцветную версию из лакированной и матовой отделки.

Catalano, guarda al futuro

1

Think Green

Catalano crede fortemente che il **"Think Green"** sia la strada da seguire per il futuro dell'industria ceramica: ridurre drasticamente l'impatto sull'ambiente ed applicare il LCD Life Cycle Design.

Catalano strongly believes that **"Think Green"** is the road that needs to be followed for the future of the ceramic industry: drastically reducing the impact on the environment and the planned application of the principles of LCD (Life Cycle Design).

2

Le nostre certificazioni Our certifications

3

Un team fortemente coeso e motivato A highly cohesive and motivated team

Catalano opera con un team di specialisti che quotidianamente monitora e valuta gli aspetti ambientali aziendali al fine di garantire il rispetto delle normative e dell'ambiente.

Catalano manages all environmental aspects with a team of people who monitor and evaluate daily the company's environmental situation in order to ensure compliance with laws, authorizations and respect of the surrounding environment.

4

Processi e ricerche Procedures and researches

L'implementazione di impianti robotizzati hanno consentito un sensibile miglioramento qualitativo dei prodotti in aggiunta alla riduzione dei consumi energetici e dell'impatto ambientale.

The implementation of robotic machineries has allowed a significant qualitative production improvements and also reduced energy consumption and the impact on the environment.

Catalano, looking to the future

5

Esclusivo sistema di recupero del calore Exclusive heat recovery system

È stato realizzato un esclusivo sistema di recupero del calore, che ha migliorato le performance ambientali portando ad una diminuzione dei consumi di gas e di energia nelle fasi di cottura ed essiccazione.

An original and exclusive heat recycling system was designed to further improve the protection of the environment, which led to a considerable reduction in energy during firing and drying phases.

6

Nuovi impianti fotovoltaici New photovoltaic systems

La messa a regime degli impianti fotovoltaici, ha permesso un fondamentale risparmio di energia quantificabile in circa 1 milione di kWatt l'anno.

The implementation of our solar power plant has allowed for fundamental energy savings of about 1 million kW a year.

7

Riciclo totale degli scarti ceramici Total recycling of ceramic waste

È stato recentemente realizzato un nuovo impianto, ad alta efficienza energetica, capace di riciclare al 100% gli scarti di lavorazione, già di per sé derivati dalla lavorazione di materie prime naturali.

The new innovative recycling plant, which is highly energy-efficient, is able to recycle 100% of the processing waste of industrial procedures derived from the processing of natural raw materials.

8

Impianto di depurazione Water purification plant

L'ingegnerizzazione dei processi ha reso più efficienti i sistemi di trattamento delle acque ottenendo una notevole riduzione dell'utilizzo di prodotti per la depurazione.

The water treatment plants have been made more efficient through continuous research applied to process engineering, achieving a significant reduction in the use of purification products.

Reason why

Catalano, la scelta migliore

1

Made in Italy

Tutti i prodotti della Catalano sono pensati, progettati e prodotti al 100% in Italia, nel nostro unico stabilimento produttivo vicino Roma. La scritta "Made in Italy" viene impressa a fuoco in modo inalterabile per garantire l'assoluta originalità dei prodotti.

All Catalano products are 100% Made in Italy, because they are all conceived, designed and manufactured in our sole global production site near Rome. "Made in Italy" logo is hot-stamped in unalterable way to guarantee the origin of our products.

2

Know How

La migliore qualità della ceramica sanitaria, ottenuta grazie a macchinari di ultimissima generazione e all'insostituibile competenza tecnica del nostro personale.

Best quality ceramic sanitary ware, achieved thanks to the most advanced technologies in production process and to the exceptional skills of our technicians.

3

Industria 4.0 | Industry 4.0

Un cambio di paradigma nella produzione, inteso come smart manufacturing, per la digitalizzazione e ottimizzazione dei processi produttivi.

A change of paradigm in production, intended as Smart Manufacturing, for digitization and optimization of production processes.

4

Sostenibilità | Sustainability

Fondamento di tutte le scelte produttive e di progettazione in Azienda, è confermata dalle importanti certificazioni ottenute.

It is the cornerstone for all design choices and processes in the company, and it is confirmed by the most important certifications obtained.

Catalano, the better choice

5

Cataglaze®+Silver Titanium, protezione antibatterica 99,99% antibacterial protection 99,99%

È un potenziamento dello smalto Cataglaze che, oltre a ridurre il deposito di calcare facilitando la pulizia dei sanitari ceramici, svolge una potente azione antimicrobica in grado di contrastare germi e batteri.
It is an improvement of Cataglaze glazing system; besides being more resistant to limescale and therefore easier to clean, it has a powerful antibacterial action able to kill germs and bacteria.

6

Colori | Colors

Smalti colorati, satinati, inalterabili e resistenti agli attacchi acidi, esclusivi dei laboratori Catalano.
Our coloured glazes, satin and unalterable, tested for acids and alkali resistance, have been developed in-house and so they are exclusive and unique.

7

Gold & Silver

Preziose finiture metallizzate in argento puro e oro 18k antigraffio ed inalterabili nel tempo.
Precious metal finishes in pure silver and 18k gold, are scratch-resistant and unalterable over time.

8

Newflush®

Scarico a vortice per WC senza brida, silenzioso, migliora l'igiene e ottimizza la pulizia. **Brevetto Catalano.**
Vortex flushing system for WCs without rim, with minimal noise, it improves hygiene and facilitates more thorough cleaning. **Catalano patent.**
