RAK
CERAMICS

 Dubai Downtown, UAE

At RAK Ceramics we help to create icons, we help to build marvels and our products feature in some of the most iconic buildings in the world. We are known for our wide product range and our ability to produce bespoke ranges for both small and large scale projects, enabling our clients to bring their ideas to life. We respect, we inspire, we improve, we deliver; no matter the ambition, no matter the challenge, at RAK Ceramics we take care of all the details, however large or small, so you don't have to. Our passion and expertise combined with this careful attention to detail enables us to provide you with a wide range of integrated ceramics solutions, allowing you freedom to be creative and plenty of room for imagination.

TALENT,
EXPERIENCE AND
IMAGINATION,
BUILD MARVELS.

Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

Design by Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolumpi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

RAK-DES TOUCHLESS FLUSHING

The hygienic hands-free flushing experience

More Easy And Hygienic

Enjoy the same hands free, germ free experience of commercial restrooms. With the new Rak Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

DUAL FLUSHING:

-  Still hand above the indicated spot for full flush.
-  Waving hand above the indicated spot for half flush.

Technical Information:

-  Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.
-  Battery life: around 2 years for family use, and 1 year for commercial using.
-  Override lateral push button in case of failed battery.

RAK-SENSATION TOUCHLESS FLUSHING

The hygienic hands-free flushing experience

More Easy And Hygienic

Enjoy the same hands free, germ free experience of commercial restrooms. With the new Rak Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

DUAL FLUSHING:

-  Still hand above the indicated spot for full flush.
-  Waving hand above the indicated spot for half flush.

Technical Information:

-  Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.
-  Battery life: around 2 years for family use, and 1 year for commercial using.
-  Override lateral push button in case of failed battery.

Waterless

RAK-Venice is a urinal perfectly functioning with no use of water: we call it Waterless.

RAK Ceramic's Waterless system is unlike any other dry valve in the market, helping to: eliminate restroom odors, provide the most robust flow rate, make maintenance and clean up easier, and provide a more hygienic solution in the restroom.

The maintenance of our Waterless system is easy and fast, the green visual indicator is made of biodegradable ingredients that inform when it's time to change out your cartridge (approx. 7500 uses).

Designers

Collaboration is the essence of Creation. RAK Ceramics works with renowned designers to create innovative bathroom products that will inspire and enhance your imagination. Aimed to address the evolving design demand of the market, these collaborations bring forth creative ideas and latest trends in the industry resulting in an aesthetic and functional bathroom collection. RAK Ceramics brings the designer's idea to life by creating high quality products which gives the customers the freedom to imagine.

Patrick Norguet

Patrick Norguet is an essential figure on the international design scene.

After completing his design studies at the ESDI, Patrick Norguet was commissioned to design the display windows of two major players in the luxury industry: Yves Saint-Laurent and Louis Vuitton. From these experiences, he gained an understanding of brand identity and the way of showcasing it. Designing Renault's event stands helped him to hone and apply his synthesis skills to ephemeral architectures.

In 2000, his Rainbow Chair, noticed and produced by Giulio Cappellini, gave him visibility that quickly spread thanks to the international media. He then opened his studio in Paris. His early furniture collections for Bernhardt, Artifort, Offect, Capdell or the French companies Alki and Tolix validated and established his presence at international shows. In 2010, designing one McDonald's restaurant in France gradually led to a collaboration with McDonald's Global. Patrick Norguet has become an emblematic figure of French design.

Alias, Arflex, Artemide, Cassina, Emu, Ethimo, Glass Italia, Kristalia, Lea Ceramica, Pedrali, de Padova, and Tacchini quickly recognized his talent and authority and fully involved him in the production process and strives to create long-lasting collections. Drawing inspiration from everything that surrounds him, Patrick Norguet does not follow trends but seeks to give shape to products whose relevance and modernity would withstand the test of time: "A well-designed object, an object created through generous collaboration is time-less." Together with RAK Ceramics, Patrick Norguet presents the project **RAK-Valet (2021)**.

Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with **RAK-Cloud (2018)**, a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. **RAK-Petit (2019)** is the second concept developed together with RAK Ceramics.

Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolumpi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project **RAK-Variant (2019)**.

Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

design
RAK
CERAMICS

Updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation

FOR BACK TO WALL AND FREE STANDING

FOR WALL HUNG

Water Saving

Easy Cleaning

Hygienic

No ledges or rim

Rimless

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH

Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern. Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

DUAL FLUSHING:

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with ISO 9001 certification by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of ISO 9001:2015 with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for ISO 14001:2015 Environmental Management System. Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to ISO/IEC 17025 accredited by NATA (National Association of Testing Authorities, Australia).

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, acrylic bathtubs and showertrays.

Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.
